**Progresses and Problems in the Antiinfective Therapy - 7th South East
Congress of Chemotherapy and Infection (7th SEEC)**

**Progrese și probleme în terapia antiinfecțioasă - 7th South East Congress of
Chemotherapy and Infection (7th SEEC)**

The antiinfective chemotherapy is one of the most important parts of pharmacotherapy and a great medical issue, nowadays. Between October 13th - 15th 2016 it was held in Sibiu, Romania, the 7th South East Congress of Chemotherapy and Infection (7th SEEC) organized by the Romanian Society of Chemotherapy, the Federation of European Societies of Chemotherapy of Infection (FESCI) and "Lucian Blaga" University of Sibiu, under the auspices of the International Society of Chemotherapy. The Co-Presidents of the Congress were Mihai Nechifor and Camelia Grigore (Romania).

The congress included a postgraduate course, 12 oral sessions, a poster session and two plenary lectures. The International Scientific Committee, composed of members from 14 European countries, and the Organizing Committee prepared a scientific program which covered a broad spectrum of problems.

7th SEEC represented a good opportunity for scientific discussions, to get new ideas and possibilities for collaboration in the research field and also in the medical practice. The postgraduate course, Antiinfective therapy in medical practice, covered the most important directions of the development of the therapy in this area of interest. The topics of the course included: perspectives in antibiotherapy, treatment of children digestive infections, sepsis biomarkers, collateral effects of the antibiotics treatment, factors that influence the occurrence of antiinfective agents adverse reactions.

The oral sessions were focused on:

- "Hepatitis: epidemiology, problems and new therapy" (chairs: Fatma Amer, Egypt and Alpaslan Tonoglu, Turkey);

- “Risk infections and threats for bioterrorism” (chair Krassmir Metodiev, Bulgaria, the vice –president of FESCI);
- “Therapy of bacterial and fungal infections” (organized by Romanian Society for the Study of Chemotherapeutics);
- “New antibiotics or antimicrobial stewardship: a false dilemma” (chairs: Leonardo Pagani, Italia and Milan Cizman, Slovenia)
- “Collateral effects and problems in antibacterial antibiotherapy” (chair Mihai Nechifor, Romania).

The congress has provided the opportunity for a large number of researchers, from 22 countries to present and compare their scientific results.

Prof. Mihai Nechifor, PhD

President of the Romanian Society for the Study of Chemotherapeutics
Department of Pharmacology, “Gr. T. Popa” University of Medicine and Pharmacy, Iași,
Romania
