

Redacția: București, str. Traian Vuia 6, sect. 2, cod 020956**www.revistafarmacia.ro****VOL. 67, nr. 5, 2019****The 12th Edition of the Biopharmacy Pharmacokinetics & Industrial
Pharmacy Symposium****November 8th, 2019, Cluj-Napoca, Romania, “Iuliu Hațieganu” Hall**

In the modern age of medicines, many problems were solved by the development of new manufacturing technologies and novel pharmaceutical formulations coupled with proper assessment of their properties through *in vitro* and *in vivo* studies. In this context, it occurred the need to discuss the current and future challenges that can be overcome by using these technologies in the development of pharmaceutical formulations with many advantages over the traditional ones, as well as to discuss about the final product quality assessment, through biopharmaceutical and pharmacokinetic studies.

The 12th edition of the Symposium on Biopharmacy – Pharmacokinetics and Pharmaceutical Industry aims to address nowadays issues in these fields and facilitate a transfer of knowledge among specialists. This is a continuation of the tradition initiated by Professor Sorin E. Leucuța and contributes to the continuous professional training that is necessary for professionals working in the field of medicines manufacturing. This year's Symposium is based on sharing the results of pharmaceutical development, manufacturing and drug evaluation. The presentations will highlight the latest trends in these areas, focusing on both patient safety during therapy and maximizing therapeutic efficacy.

Registration fees:

Category	Before September 30 th , 2019	October 1 st , 2019 - November 8 th , 2019	Onsite
University, industry, pharmacy, distribution	100 RON	150 RON	200 RON
Pharmacist, member of The College of Pharmacists in Cluj, with a valid certificate for 2019	75 RON	125 RON	200 RON
Presenting author (conference/oral presentation/poster)	50 RON	–	–
Student	–	–	–

**AAPS/EUFEPS GLOBAL BIOEQUIVALENCE HARMONIZATION
INITIATIVE (GBHI): 4TH INTERNATIONAL WORKSHOP**

**The Bethesda Hotel, Tapestry by Hilton
Bethesda, MD, USA
December 12 - 13, 2019**

For several years now, the European Federation for Pharmaceutical Sciences (EUFEPS), with its Network on Bioavailability and Biopharmaceutics (BABP) in the lead, has worked toward harmonizing the requirements for bioequivalence assessment. This goal was encouraged from the beginning by the European Medicines Agency (EMA) as well as the US Food and Drug Administration (FDA). To support the intended process of global harmonization scientifically, a series of international conferences was started by EUFEPS in collaboration with AAPS. The first one was held in 2015 in Amsterdam/The Netherlands, followed by a second one in 2016 in Rockville/USA, and a third one in 2018 again in Amsterdam.

All conferences were characterized by open discussions and constructive exchange between regulatory scientists, academia and industry. Thus, these contributed significantly to the debate on a worldwide harmonization of bioequivalence requirements. Also regulators and speakers from other countries/regions, e.g. Canada, Chile, China, India, Japan, Jordan, Mexico, and Brazil, attended and contributed to the discussions. Such global participation has formed an ideal platform for scientists from the pharmaceutical industry and academia to exchange their experience and views with regulators. Scientific consensus achieved at the end of processes such as these should constitute the most appropriate basis for harmonization.

Registration fees

Registration Type	Early Registration <i>July 1 – November 11, 2019</i>	On-Site Registration <i>November 12, 2019 – On-site</i>
AAPS Member	\$1,095	\$1,395
EUFEPS Member	\$1,095	\$1,395
Non-Member	\$1,395	\$1,695
Government	\$550	\$650
Student	\$150	\$250
