**THE 13TH EDITION OF THE NATIONAL PHARMACY
CONFERENCE**

Interdisciplinary Conference Pharmacist - Physician

The interdisciplinary conference pharmacist – physician, with double accreditation, will take place online and hybrid between **26-28 November 2020**, being the only Romanian event where pharmacists and physicians have the opportunity to communicate directly and establish therapeutic protocols and procedures. The conference has the status of Pharmaceutical and Medical Continuing Education Course and is addressed to pharmacists, as well to all physicians.

The conference topics will address current issues in therapeutic practice including original drugs *vs.* generics, medication *vs.* medicine, pharmaceutical - therapeutic needs *vs.* economic needs.

The organizers of the conference are the Romanian Medical Association, the Romanian National Society of Infectious Diseases, the Romanian College of Pharmacists, and the National Agency for Medicines and Medical Devices of Romania.

CONFERENCE SECTIONS

- Advances in the medication of different pathologies
- Drug formulations, combinations and interactions
- Current regulations in the prescription of medicines
- Counteracting over-the-counter antibiotics
- Modern biological therapies
- Counterfeit medicines – a public health problem
- Important classes of drugs – effects and precautions
- Current issues (original *vs.* generic)

More details on attending the conference can be found at: <https://cnf2020.farma.ro/>

The 1st International Electronic Conference on Pharmaceutics

01/12/2020 - 15/12/2020

It is our pleasure to invite you to participate in the **1st International Electronic Conference on Pharmaceutics** that will be held online at <https://sciforum.net/conference/IECP2020> from 1 to 15 December, 2020. Participation in the conference is free.

The drive for new, efficient, and cost-effective drugs and medical products has led to exciting new developments and innovative research in the field of pharmaceutics and pharmaceutical technology in recent years. Significant changes are occurring in drug production and development, such as the movement from batch to continuous manufacturing and to more environmentally sustainable methods for drug manufacturing, the shift to personalized medicine, and the growing importance of *in silico* methods for drug development.

The **1st International Electronic Conference on Pharmaceutics** will bring together experts from academia and industry to share new ideas, technologies, and innovations in the broad areas of pharmaceutical formulation, process development, drug delivery, pharmacokinetics, and biopharmaceutics. The online conference will offer a platform for presenting the latest research and will allow participants to engage in discussions with international colleagues *via* online question-and-answers sessions and discussion groups.

The conference will cover a wide range of topics with specific sessions dedicated to:

- Formulation of poorly soluble drugs
- Cyclodextrins in pharmaceutics
- Electrospun/sprayed drug delivery systems
- Advances in pharmacokinetics and drug metabolism
- Transdermal and topical drug delivery
- Brain drug delivery
- Nanomedicine for cancer

All submitted abstracts will be evaluated by the Scientific Committee. Upon acceptance of their abstract, authors will be asked to contribute accepted papers to the conference proceedings and a slide presentation of their work.

The authors of the most outstanding contributions will be invited to submit a full manuscript for potential publication in a Special Issue of the open-access journal *Pharmaceutics* (ISSN 1999-4923, IF 4.421/2019).

More details on attending the conference can be found at:
