INSTRUCTIONS FOR AUTHORS
In order to achieve uniform presentation and to avoid unnecessary delays, all authors are requested to follow the next guidelines.

FARMACIA publishes original papers in English. The following fields are covered: discovery and synthesis of new and/or improved therapeutic substances, preclinical and clinical experience, delivery systems and dispensing of drugs, and additional topics related to resources on the biochemistry, metabolism, and toxic or adverse effects of drugs.

Articles are considered for publication depending on scientific value and originality of the research.

The manuscript is only accepted if either the article or any essential part of this has not been published or is submitted exclusively to the journal FARMACIA. The covering letter and disclosure form signed by all the authors must state that authors agreed with the submission and that the material is original and is not under consideration for publication elsewhere. The declaration must contain also, a statement that clinical studies or experimental research on laboratory animals comply with the Declaration of Helsinki or the Directive 2010/60/EU. It will also be indicated the name, address, phone number and e-mail address of the corresponding author.

Manuscripts for FARMACIA should be submitted online at https://farmaciazurnal.ro/login. The submitting author, who is generally the corresponding author, is responsible for the manuscript during the submission and peer-review process. The submitting author must ensure that all eligible co-authors have contributed significantly to the manuscript and that they have all read and approved the submitted version of the manuscript.

Manuscripts must be submitted in the Microsoft® Word format. Times New Roman font, size 14, double-spaced typing. A4 sized paper with 2 cm margin. The paper should be structured as follows:

Abstract (not exceeding 1500 characters) and 4 - 7 keywords; both must be written in English and in Romanian.

The paper will be written in a clear and accurate manner and must be organized in the following form: Introduction. A brief interpretation of the literature concerning the state of the current knowledge in the field. Materials and Methods. Results (including statistical analyses). Discussion and Conclusions. Tabular data should have a brief, specific, descriptive title. The names of drugs, materials, and methods must be written in a standardized manner. Important graphs and illustrations should include a caption. The structure of the paper should be as follows:
